australiangasnetworks.com.au/rebates

*Terms and conditions apply. See reverse for details.

Up to \$750* new connection bonus

A limit of 1 x connection bonus to the maximum value of \$750 is available when an established dwelling (not a new build) connects to gas for the first time during the campaign period.

The amount payable depends on the number of eligible natural gas appliances* connected within the first 12 months of the gas meter being installed i.e.

- If only one gas appliance is connected, the connection bonus payable is \$250
- If two gas appliances are connected, the connection bonus payable is \$500
- If three or more gas appliances are connected, the connection bonus payable is \$750

The connection bonus can be claimed incrementally as new appliances are connected.

* Eligible natural gas appliances: hot water, heating, cooking, bbq (hot water and heating appliances must meet minimum Gas Energy Rating as listed below)

Appliance offers

Appliance rebates shown below can be claimed in conjunction with the connection bonus

Hot water (minimum 6 star rating)

\$500 per natural gas hot water service

A bonus \$250 applies if the natural gas hot water service has a 7-star Gas Energy Rating; or
A bonus \$250 applies to natural gas boosted solar hot water services.

Rebates are not available to appliances that do not meet the minimum Gas Energy Rating.

Gas central heating (minimum 5.8 stars or 5 stars with zoning)

\$750 per each natural gas central heating system

Rebates are not available to appliances that do not meet the minimum Gas Energy Rating.

Room heating (minimum 4.5 star rating)

\$600 per each natural gas flued room heater
(i.e. gas log fire, space heater, wall furnace)

Rebates are not available to appliances that do not meet the minimum Gas Energy Rating.
